Quiz:	Computer Science Data Structures Simulation Quiz
Course:	Advanced Computer Science Simulation (CS-SIM-25666)
Faculty:	Naruto Uzumaki
Details:	8 min 8 questions Apr 25, 2026

Feedback Participation

Total Responses	65	Response Rate	93% (65/70)
Validation Pass	100.0%	Flagged Submissions	2

Overall Sentiment

Sentiment: Concerning

Action recommended 45% of responses were negative. Review the category breakdown and signals below.

Category Dimension Breakdown

Each teaching dimension is scored by student sentiment. "Direction" summarizes the average: Positive (>0.5), Neutral, or Negative (<-0.5).

Category	Avg	Direction	Resp.	+	~	-	Top Signal
Clarity	-0.2	Neutral	325	+128	44	-153	Structure of statements improved understanding

Feedback Signals

The most frequently selected options by students, grouped by sentiment direction.

Strengths (What students appreciated)

Signal	Mentions	Category
Structure of statements improved understanding	72	clarity
Most questions were clear with minor ambiguity	68	clarity
Instructions were clear and reduced guesswork	67	clarity
Question wording was precise and easy to interpret	59	clarity

Areas for Improvement (What students flagged)

Signal	Mentions	Category
A few questions were unclear at first glance	69	clarity
Important details were easy to miss in prompts	66	clarity

Need simpler language for complex questions	63	clarity
Answer options were too similar in wording	61	clarity
Several questions felt ambiguous	59	clarity

Question-wise Response Distribution

How clear were the quiz instructions before you started solving? [clarity]

65 responses

Option	Count	%	Sentiment
Instructions were clear and reduced guesswork	18	12.9%	Positive
Important details were easy to miss in prompts	17	12.1%	Negative
Several questions felt ambiguous	16	11.4%	Negative
Need simpler language for complex questions	15	10.7%	Negative
Some wording needed re-reading before answering	14	10.0%	Neutral
Answer options were too similar in wording	13	9.3%	Negative
Question wording was precise and easy to interpret	13	9.3%	Positive
A few questions were unclear at first glance	13	9.3%	Negative
Most questions were clear with minor ambiguity	12	8.6%	Positive
Structure of statements improved understanding	9	6.4%	Positive

How easy was it to understand what each question expected from you? [clarity]

65 responses

Option	Count	%	Sentiment
Some wording needed re-reading before answering	18	14.3%	Neutral
Structure of statements improved understanding	14	11.1%	Positive
Question wording was precise and easy to interpret	14	11.1%	Positive
Answer options were too similar in wording	13	10.3%	Negative
A few questions were unclear at first glance	13	10.3%	Negative
Important details were easy to miss in prompts	13	10.3%	Negative
Instructions were clear and reduced guesswork	12	9.5%	Positive
Need simpler language for complex questions	12	9.5%	Negative
Most questions were clear with minor ambiguity	10	7.9%	Positive
Several questions felt ambiguous	7	5.6%	Negative

How clear were the terms and wording used across quiz questions? [clarity]

65 responses

Option	Count	%	Sentiment
Instructions were clear and reduced guesswork	15	12.1%	Positive
Most questions were clear with minor ambiguity	15	12.1%	Positive
A few questions were unclear at first glance	14	11.3%	Negative
Important details were easy to miss in prompts	14	11.3%	Negative
Several questions felt ambiguous	14	11.3%	Negative
Need simpler language for complex questions	12	9.7%	Negative
Answer options were too similar in wording	12	9.7%	Negative
Question wording was precise and easy to interpret	11	8.9%	Positive
Structure of statements improved understanding	10	8.1%	Positive
Some wording needed re-reading before answering	7	5.6%	Neutral

How easy was it to identify key details needed for correct answers? [clarity]

65 responses

Option	Count	%	Sentiment
Structure of statements improved understanding	24	18.9%	Positive
Answer options were too similar in wording	14	11.0%	Negative
Instructions were clear and reduced guesswork	14	11.0%	Positive
A few questions were unclear at first glance	13	10.2%	Negative
Several questions felt ambiguous	13	10.2%	Negative
Need simpler language for complex questions	12	9.4%	Negative
Question wording was precise and easy to interpret	11	8.7%	Positive
Important details were easy to miss in prompts	11	8.7%	Negative
Most questions were clear with minor ambiguity	10	7.9%	Positive
Some wording needed re-reading before answering	5	3.9%	Neutral

How clearly were close answer choices differentiated in this quiz? [clarity]

65 responses

Option	Count	%	Sentiment
Most questions were clear with minor ambiguity	21	16.9%	Positive
A few questions were unclear at first glance	16	12.9%	Negative

Structure of statements improved understanding	15	12.1%	Positive
Some wording needed re-reading before answering	13	10.5%	Neutral
Need simpler language for complex questions	12	9.7%	Negative
Important details were easy to miss in prompts	11	8.9%	Negative
Question wording was precise and easy to interpret	10	8.1%	Positive
Several questions felt ambiguous	9	7.3%	Negative
Answer options were too similar in wording	9	7.3%	Negative
Instructions were clear and reduced guesswork	8	6.5%	Positive

Recurring Feedback Themes

Keywords extracted from student-selected options, ranked by frequency. "Direction" reflects the average sentiment of responses containing the theme.

Theme	Frequency	Direction
structure	72	Positive
comprehension	72	Positive
unclear	69	Negative
first read	69	Negative
mostly clear	68	Positive
minor ambiguity	68	Positive
instructions	67	Positive
understanding	67	Positive
details	66	Negative
missed	66	Negative
language	63	Negative
simplification	63	Negative
options	61	Negative
similarity	61	Negative
wording	59	Positive
